Brian,

It is my opinion that, because NORCO no longer owns the Site, an access agreement should be obtained from Lazarus Texas Refinery I, LLC, i.e., the Site's current owner of record.

On Monday when Gloria returns from leave she will be able to review my attached suggested access agreement.

Bob

Can you please send me a copy of an access agreement and the contact information of who to send it to for the Falcon Site. The contractor is going to be starting field for the RI and will require access to the site for sampling and installing monitor wells in the next few weeks (mid to late June)

Thanks
